Grace Period for Metal-Level Product Enrollees:

In accordance with 45 C.F.R. 156.270(d), QHPs and affiliated issuers are required to observe a 90 day grace period after non-payment before terminating coverage for those enrollees receiving Advanced Premium Tax Credits (APTC). Claims will continue to be paid for days 1-30 of the 90 day grace period. Once an enrollee enters days 31-90 of the grace period, Fidelis Care will be pending all claims. The member will be notified that he/she is in a grace period. In addition, information on member eligibility and grace period status can also be found, at any time, on the Fidelis Care provider portal.

If the member makes all outstanding premium payments before the end of the grace period, the member's enrollment with Fidelis Care will remain intact, and all pended clean claims will be adjudicated and paid according to the member's benefits. However, if the member exhausts the grace period without making all outstanding premium payments, Fidelis Care will terminate the member's coverage, and will deny claims pended during days 31-90 of the grace period. Only complete payment of all outstanding premiums will bring the member into good standing. If coverage is terminated for non-payment of premiums, the last day of services for which Fidelis Care will pay claims is day 30 of the grace period. If coverage is terminated, you may seek payment from the member for any and all claims denied during days 31-90 of the grace period. You will be notified if the member's coverage is terminated.

A 30 day grace period will be observed for members not receiving APTC, during which time Fidelis Care will pend all claims for services rendered during that time.
